REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 5-13 are allowed, as the prior art of record does not teach or support system and method for multi-activation of ions and atoms with NMR and EPR, the system including an inductor for producing a damped wave alternating magnetic field suitable to perturb the spin orientations of nuclei/electrons of a material, in combination with the remaining limitations of the claims.

Claims 14-18 are allowed, as the prior art of record does not teach or suggest a method for multi-activation of ions and atoms with NMR and EPR, the method including the step of producing a damped wave, alternating magnetic field, having an intensity B in the inductor, suitable to perturb spin orientations of elementary atomic particles of a material, in combination with the remaining limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
